

A2000ERP ~ INVENTORY

How to handle product with Long Product Description

Inventory - Maintenance - Products and Service Maintenance Click on ADDITIONAL button, each line can enter up to 80 characters and can be printed in Repx documents.

The screenshot displays the 'Product & Service Maintenance' window. The main window has tabs for Product Info, Attribute, Item Memo, Advanced Info, Customer Sub-Code, Supplier Sub-Code, Custom Conversion, Product Compatibility, Price Level, and Product Info. The 'Product Info' tab is active, showing fields for Product Code (P2314), Description (Mild Steel Exped Metals Size: 4ftx8ftx5mm WMS0080), Pack Info, Other Description, InActive Item checkbox, Barcode, Weight (0.00 Kg), Volume (0.00 M3), Factory_Name, and Lead Time. An 'ADDITIONAL +' button is visible next to the Other Description field.

An open 'Product Detail Maintenance' window is shown in the foreground, displaying the same product information. It has a tab for 'Product & Service Additional Details'. Below the main description, there is a section for 'Additional Descriptions' with a list of lines. The first line is '1 Mild Steel Expanded Metals Size: 4ft x 8ft x 5mm thk Model: W'. The window also has a 'Get Base Currency' button.

The main window also has sections for 'Product Classification' (Type: Stock Item, A/C Group: STK, Group: PROD, Usage, Brand, Model, Make, Size, ABC) and 'Product Costing' (Cost Type: Weighted Avg, Created Date, Latest IR Date, Standard: 0.0000, W/Average: 0.0000, Min. Markup%: 0.0000). At the bottom, there are buttons for DELETE, RACK / BIN / SHELF, Clone Product, SAVE, and EXIT.

Example - Credit Invoice. Click on the PRODUCT DETAIL - display the long description and still can make amendment
